

GRAIN MOISTURE TESTER

DESCRIPTION

Grain moisture tester can measure moisture of grain crops such as corn and grains. It has stable and reliable performance. It has a weighing system and can be directly measured without prior weighing. It also has a novel design and nice appearance.

TECHNICAL PARAMETERS

MODEL	GMOISTURE-I
Sample	Grain and other nonmetal particle samples such as paddy, wheat, corn, bean, rapeseed, etc.
Measurement range	3-35%
Measurement time	≤10 seconds
Measurement error	≤±0.5%
Repeatability	≤0.2%
Display mode	Highly bright light LCD
Tester size	Approx. 200 x 110 x 200 mm
Carrying case size	Approx. 370 x 280 x 150 mm
Net weight	830 g
Working power	AC power adapter (AC 110V)

Ecoshel reserves all the rights to changes in product design, if there are any design change, we will not inform in advance.

STANDARD ACCESSORIES

1. Carrying case
2. AC power adapter
3. Cleaning brush
4. Sample canister
5. Funnel
6. Calibration weight poise

KEY FEATURES

1. Display of sample weight, temperature, and calculation of average moisture.
2. Portable, it has AC and DC power. DC power is alternative power (four AA alkaline batteries).
3. 20 common varieties of grains have been pre-calibrated and can be measured directly.

Ecoshel reserves all the rights to changes in product design, if there are any design change, we will not inform in advance.
