

# PARAFFIN DISPENSER

## DESCRIPTION

Equipment recommended to improve workflow during embedded in paraffin of tissue specimens. This instrument helps to melt and keep heating paraffin, ready-to-use. It is so useful in biomedical research laboratories, hospitals, medical colleges, forensic medicine, histology laboratories and pathology departments.

## TECHNICAL PARAMETERS

MODELO	ECO-C
Paraffin container capacity	5 L
Temperature range of container	RT to 90°C
Internal size	310 x 152 x 110 mm
External size	430 x 460 x 350 mm
Power supply	AC 110V, 60Hz

## ***STANDARD ACCESSORIES***

1. Lid of container

## ***KEY FEATURES***

1. Control panel is touch-sensitive and easy-to-use.
2. Independent adjustment of paraffin container and nozzle temperatures, and on/off scheduling function.
3. Steel inside allows simple and fast cleaning.
