

STOMACHER HOMOGENIZER

TECHNICAL PARAMETERS

MODEL	ECO-09L
Timing range	10 seconds to 7 hours 59 minutes
Rattling	3 - 12 times/second
Parameter storage	10 sets of parameters
Display	LCD display
Stroke adjustment	0 to 20 mm
Overall dimensions	245 x 430 x 290 mm
Sterile homogenization bag	175 x 300 mm
Volume	3-400 mL
Rattling plates	Stainless steel
Net weight	19 kg
Power	300 W
Power supply	110V, 60Hz

DESCRIPTION

ECO-09L can be widely used to homogenize of animal tissues, biological samples, food (such as meat, vegetables, fruits, biscuits, etc.), and cosmetics. It has gentle homogenization, no contamination, no damage, no sterilization treatment to the sample and no need to wash the utensils. Ideal for homogenizing tumor tissues (such as liver cancer, colon cancer, and breast cancer) and obtaining many of individual cells (in 2 minutes up to 2×10^5).

Ecoshel reserves all the rights to changes in product design, if there are any design change, we will not inform in advance.

STANDARD ACCESSORIES

1. Sterile homogenization bags
2. Homogenization bag clips
3. Sample holder
4. Protective covers

KEY FEATURES

1. Stores up to 10 sets of different time and rattling values.
2. Intuitive control panel.
3. Audible alarm at the end of the timer.
4. Touch screen and knob for individual setting of time and rattling.

Ecoshel reserves all the rights to changes in product design, if there are any design change, we will not inform in advance.
