

ULTRA-LOW TEMPERATURE FREEZER

TECHNICAL PARAMETERS

MODEL	86-388
Capacity	398 L
Temperature range	-10°C to -86°C
External size	785 x 1041 x 1947 mm
Internal size	440 x 696 x 1266 mm
Gross weight	272 kg
Power	1287 W
Power supply	AC 110V, 60Hz

DESCRIPTION

Ultra-low temperature freezer is specially designed to meet demands for long-term safe storage of high-valued medical and laboratory materials. New design comes with 2 independent inner doors. Optimized foaming insulation inside doors provides better temperature performance. It is suitable for blood banks, hospitals, research institutes, electronic industries, university laboratories, military industries, etc.

Ecoshel reserves all the rights to changes in product design, if there are any design change, we will not inform in advance.

STANDARD ACCESSORIES

1. Defrost shovel
