

LOW-TEMPERATURE FREEZER

TECHNICAL PARAMETERS

MODEL	25-358
Capacity	358 L
Temperature range	-10°C to -25°C
Refrigerant	R134a
External dimension	1295 x 670 x 908 mm
Internal dimension	Approx. 1020 x 530 x 705 mm
Gross weight	70 kg
Power	240 W
Power supply	AC 110V, 60Hz

DESCRIPTION

Low-temperature freezer is specially designed for storage of various things needing refrigerated such as blood plasma, reagents, instruments, etc., in hospitals, clinics, blood banks, laboratories in colleges and universities. It brings out stable performance in refrigeration and temperature control.

Ecoshel reserves all the rights to changes in product design, if there are any design change, we will not inform in advance.

STANDARD ACCESSORIES

1. Defrost shovel
2. Wire basket
3. Keys

KEY FEATURES

1. Design of upward door opening, inner made of aluminum.
2. Door is equipped with a lock, improving security of sample storage.
3. Audible and visual alarm system including sensor failure alarm, high temperature/low temperature alarm, etc.
4. Microprocessor enables a high-precision temperature control system.

Ecoshel reserves all the rights to changes in product design, if there are any design change, we will not inform in advance.
